

Function & Care for dogs

**Complex 10
Multi Oil**

Dull coat, lack of undercoat, sensitive skin. These are problems that complicate the lives of increasingly more dogs. Protection and beauty are equally affected. The oils used in Complex 10 Multi Oil with their high natural content of unsaturated and polyunsaturated fatty acids (omega 3,6,9 etc.) can help. They are of crucial importance in the nutrition in order to redress these problems.- glossy, strong coat through Omega 3, - dense undercoat, - insensitive skin through Omega 6, - body protection through maintaining fur and skin, - against aversion of food and lack of appetite, - blood cleansing (Omega 9) easily digestible through lecithine

250ml / Art.- Nr.: 31204003
1000ml / Art.- Nr.: 31204005

**Fell Plus
Hair Complex**

Permanent shedding of hair, hair breakage, moulting in spring and autumn are issues that are increasingly becoming a problem. Fell Plus Hair Complex can help in a natural way due to its ingredients and substances. - end to permanent moulting, - combats hair breakage, - ensures a seasonally suitable, sleek coat, - high doses of B-vitamins, - biotin, - yeast protein, - energy

250ml / Art.- Nr.: 31201002
1000ml / Art.- Nr.: 31201005

**Fell Glanz
Salmon Oil**

Thin, dull coat, lack of undercoat, sensitive, stressed skin. These are problems that complicate the lives of increasingly more cats and dogs. Protection of the body and beauty are equally affected. The naturally high levels of unsaturated and polyunsaturated fatty acids (omega 3 is approximately 31%) in Fell Glanz Salmon Oil act directly on the skin and coat and therefore support these vital body functions. They can specifically help to resolve this complex of problems. - glossy, beautiful coat, - dense undercoat, - less sensitive skin, - body protection by maintaining skin and coat, - promotion of vital body functions (in the liver, kidney, metabolism), - counter reluctance to eat and loss of appetite

250ml / Art.- Nr.: 31201003
1000ml / Art.- Nr.: 31201006

**Geruch-Stopp
Chlorophyll
paste**

Females in heat attract attention. Geruch Stopp Chlorophyll Paste can stop this problem. Chlorophyll prevents, by enzymatic means, the very development of odors. When there is no scent, not even a male dog will notice something. And so are general „canine“ odors (mouth, coat) are avoided. Simply feed. Tasty and effective. - stops odors, - effective from the inside, - odors can not be developed, - males stay away

150g / Art.- Nr.: 31205001

**Kraft Plus
Mother &
Puppy paste**

There is no greater challenge to the body than the time during pregnancy and nursing puppies. Kraft Plus Mother & Puppy Paste makes it possible to meet the extremely high energy requirements of the mother dog before and after the birth and for the growing puppy. The high energy content can be obtained without increasing the daily food intake, the performance of the stressed mother is maintained, and emaciation due to the birth is also avoided. This additional energy input also makes it easier for the puppies to cope with the process of settling. - quickly available additional energy, - strengthening of the female, - support for the puppy during stressful settling, -promoting resilience

150g / Art.- Nr.: 31205002

**Aufbau Plus
Dog Milk**

Large litters, too little milk from the mother, weak puppies -risk factors that must be precisely balanced at the beginning of life. The Aufbau Plus Dog milk replaces mother's milk, gives the nurturing mother energy and strengthens old or weakened animals. Aufbau Plus Dog Milk has been „recreated“ from the female dogs milk. Easily digestible, no diarrhea. And so, puppies grow up healthy and the old and weak are strengthened, without undue strain on the body. - optimally compatible milk substitute, - feeding to relieve the female dog, - to strengthen the female, - to meet the extreme protein requirements of the mother, - to strengthen weak and old dogs

450g / Art.- Nr.: 31205005

**Pigment Activ
Carrot
Granules**

Weak, indiscriminate coat colours appear unpleasant and unattractive. The carrot provitamin A (beta carotene) present in Pigment Activ Carrot Granules encourage a positive effect on coat pigmentation. It can also provide a positive influence of red and brown pigments, provided they are present. - Strong coat colour,- For brown and red coat colours

600g / Art.- Nr.: 31201010

**Fell Aktiv
Yeast Granules**

Thin, dull coat, lack of undercoat, sensitive, stressed skin. These are problems that complicate the lives of increasingly more dogs. Protection of the body and beauty are equally affected. The high quality feed yeast used in Fell Active Yeast Granules contain large natural amounts of the Vitamin B complex. This, together with the well known dietary effects of yeast can help to support the remedy of these problems. For: - glossy, beautiful coat, - dense undercoat, - less sensitive skin, - body protection by maintaining skin and coat, - with natural vitamin B complex, - with unsaturated fatty acids

600g / Art.- Nr.: 31201009

**Repair Pro
Biotin Tablets**

Fragile, dull coat, brittle nails and sensitive skin - the common cause is a lack of biotin. These can be results from a deficiency in the daily diet, a problem of feed utilization or an actual increased demand. Repair Pro Biotin Tablets compensate for these symptoms of deficiency by ensuring the supply of biotin in order to specifically help in solving these problems. Repair Pro Biotin Tablets: - for optimum strength and promotion of skin metabolism., - requirement for securing a sufficient supply for skin, fur and claws. due to: - high quality yeast with large quantities of natural B-vitamins. - high content of added biotin, - amino acids from yeast proteins, - balanced supply targeted to where conditions have already been affected by nutritional deficiencies - Biotin deficiency: Dull coat, fragility of fur, broken nails, itching skin

200g / Art.- Nr.: 31201004
350g / Art.- Nr.: 31201007

**Pigment Activ
ALGOSAN
(ground green
seaweed)**

Weak, indiscriminate coat colours appear unpleasant and unattractive. Through decades of practical experience it is well known that the gently dried seaweed (Ascophyllum nodosum) contained in Pigment Activ ALGOSAN has a positive effect in invigorating the too weak, or too dark, existing pigmentation of the coat. It has been proven that Pigment Active ALGOSAN (Ascophyllum nodosum) also has positive effects on sensitive and vulnerable skin. - intense colour, strong coat, - for dark coat colours, - insensitive skin

400g / Art.- Nr.: 31201008

**Support Com-
plex - Senioren
Tonikum for
Dogs**

Poor feed utilisation by age-related hypometabolism is a major problem for aging and older dogs. The nutrients and active ingredients supplied in the feed can not be fully utilised. The organism is weakened. Senioren Tonikum Support Complex has been designed to compensate for these shortcomings of the aged metabolism. And so, even senior dogs can stay fit and enjoy their lives. - compensate for age-related metabolic defects, - support for the utilisation of nutrients and active ingredients, - encourage vitality and fitness

250g / Art.- Nr.: 31205003

**Energy & Fit
ALTRAN Cod
Liver Oil**

Movement aversion, lack of vitality - dogs are not permanent performers. Energy & Fit ALTRAN can help. Cod liver oil provides energy and high doses of natural vitamins A and D3 to skin and bone. Feed does not help much when it comes to immediate energy requirements, as it only meets the basic demand. Energy & Fit Altran gives more vitality during unfamiliar or unusually long walks, agility games or on the training field. The traditional cod liver oil in its original form is good for the joy of movement. - quickly available energy, - joy of movement, - Vitality, - Natural Vitamin A (for skin and mucous membranes), - Natural vitamin D3 (for bone structure)

250g / Art.- Nr.: 31203002
1000g / Art.- Nr.: 31203005

**Energy & Fit
Power Fresh
Paste**

Movement aversion, lack of vitality - dogs are not permanent performers. They require energy intake between meals. Feed does not help much when it comes to acute energy requirements, as it only meets the basic demand. Energy & Fit Power Fresh Paste gives more vitality during unfamiliar or unusually long walks, agility games or on the training field. Appropriate fats as an energy source and yeast protein assisted by the addition of vitamins and L-carnitine, offer fast effective energy for the joy of movement. - quickly available energy, - joy of movement, - Vitality

150g / Art.- Nr.: 31203006

**Energy & Fit
LEZITRAN
feeding oil**

Movement aversion, lack of vitality - dogs are not permanent performers. Energy & Fit LEZITRAN can help. Cod liver oil and maize germ oil provide energy while lecithin ensures for strong nerves and assists in the digestion of fat. Feed does not help much when it comes to acute energy requirements, as it only meets the basic demand. Energy & Fit LEZITRAN gives more vitality during unfamiliar or unusually long walks, agility games or on the training field. Appropriate natural oils as an energy source and lecithin for better recovery, offer fast effective energy for the joy of movement. - quickly available energy, - joy of movement, - Vitality, - Natural Vitamin A (for skin and mucous membrane), - Natural vitamin D3 (for bone structure), - Natural Vitamin E (for cellular protection and fertility)

Function & Care - Optimal supplemental nutrition for dogs.

What is more important for the customer than the welfare of their most loyal friend?

In the lives of many people, their dog is their best friend. He accompanies this with a lifetime of love and loyalty through all the intricacies of life. Therefore nothing is as important to them than the welfare of their pet. Appropriate nutrition is essential for an indispensable foundation. Whilst accompanying his human through life, the dog goes through a variety of changes

which are unfortunately not always taken into account with his daily nourishment. The nutrients and active ingredients in the basic nourishment can not be appropriately adjusted to constantly changing needs.

Illness, growth, moulting or old age are just some examples of situations that make a targeted supplemental nutrition essential. You as a specialist retailer have therefore the possibility to offer our products from the range Function & Care - Supplemental Nutrition to responsible dog owners. A wide range of products, enabling

to specifically meet any change in the lives of their four-legged friends. A selective decision of the dogs needs is an important contribution to ensuring that he is well equipped for all situations.

For you this means a wealth of benefits. Supplemental Nutrition is a rapidly expanding area that allows for high margins. You can specifically generate additional sales. We support you with optimally coordinated POS activities in order to sell the products well. We look forward to working with you.
